

Dear Parents

Please find attached the results of the Governors' questionnaire that was distributed during the parent consultations in March. 150 parents completed and returned the questionnaire, and we would like to thank you for taking the time to respond.

We are very pleased with the results of the survey and will look at areas where improvements can be made. The survey forms contained many individual comments. These comments are very helpful in communicating parents' views.

Whilst the Governors form an important part of the strategic management of the school, many parents are still not aware of the work that is being done by the Governors. However, since the re-introduction of the Governors' Annual Report to Parents we have seen a marked increase in the number of parents that have knowledge of the Governors' role.

Finally I would like to take this opportunity on behalf of the Governing Body to thank Mrs Cole and her staff who work so hard to provide a happy and stimulating environment where children can achieve their very best.

Thank you again for your help with the questionnaire.

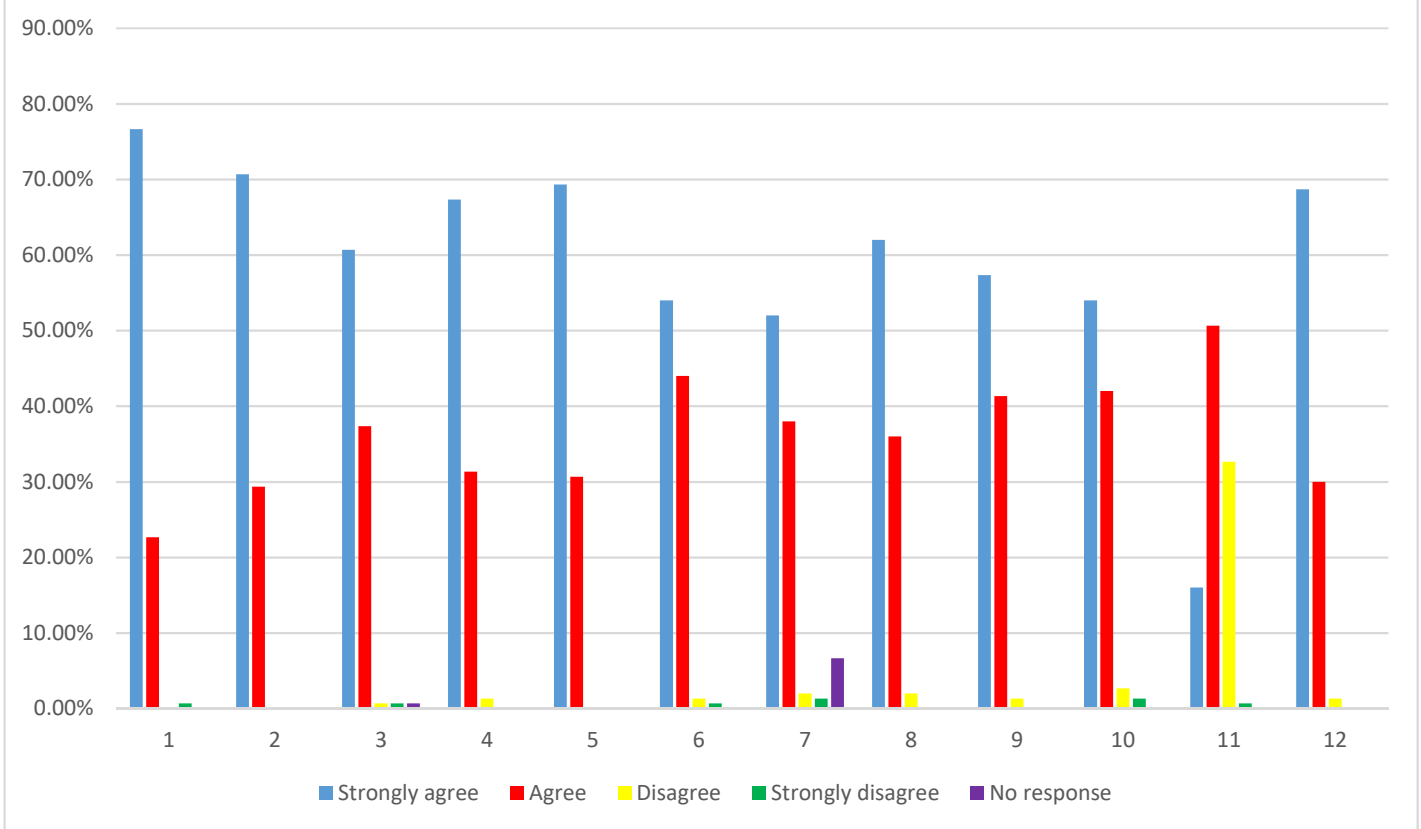

Chris Jones

**Q9. This school responds well to my concerns.**

**Q10. This school keeps me well informed.**

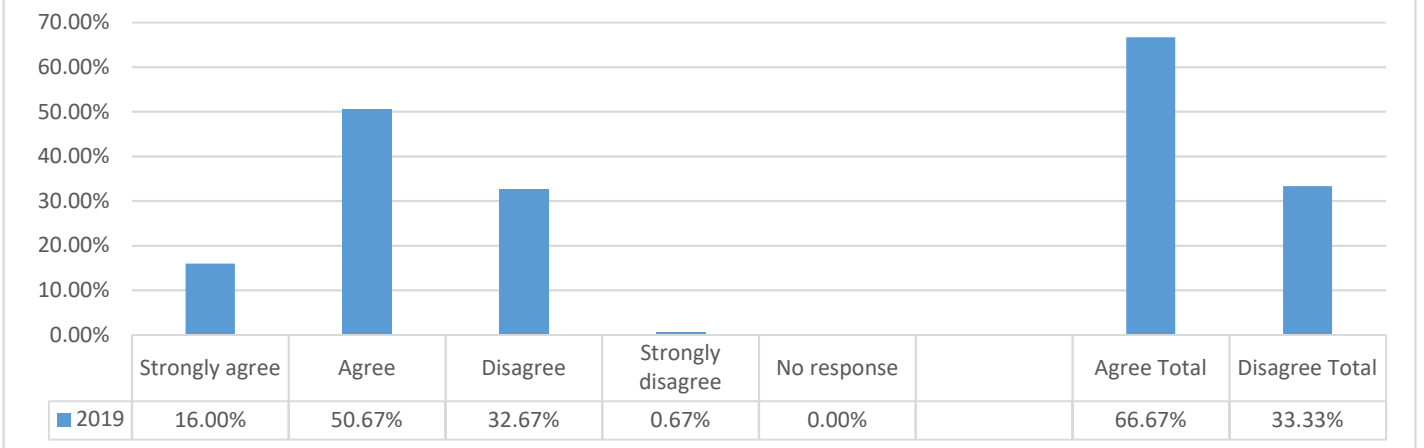

A good responses at 96% Communication is always tricky to get correct, especially getting a good balance with all the new technological ways of communicating available to us today.

'The communication to parents could be a lot better. I often find a lot of questions asked on facebook that parents are wondering.'

'Working full time it's a bit of a pain that many things (parent's evening e.t.c.) are sign up on the door at pick up, by the time you call the next morning most slots at a convenient time are gone.'

**Q11. I know what the governors do.**

It is no surprise that this question has a greater spread of results. The governors still complete an end of year report that is available on the school website when reports are issued and there is noticeably more information about the governors on the website, but understandably it is not at the forefront of parents mind to look at.

Very pleasing results at 98.67%.
